SH/01/11/24 OPENING REMARKS

The meeting was called to order at 10:00hrs and an Opening Prayer was given by a stakeholder, after which all members introduced themselves.

Opening remarks were given by the Town Clerk who welcomed all members present and expressed her gratitude for their attendance despite the bad weather. She stated that stakeholder consultation is an integral part in the process of preparation of the annual institutional budget and as such encouraged them to express themselves during the meeting. She further expressed that the Budget Performance for the year 2024 was below expectation as the Local Authority faced major challenges in the collection of revenue especially in property rates despite offering incentives to rate payers. She further informed the house that the Local Authority would present measures aimed at enhancing revenue collection for the year 2025.

SH/10/11/24 CHALLENGES FACED BY THE LOCAL AUTHORITY

The Director Finance further presented the following challenges being factors which have contributed to the poor performance of the Council's Budget from 2022 to date;

1. LOW COMPLIANCE LEVELS AMONG TAX PAYERS

The Director Finance stated that one of the major challenges the Council has faced is low compliance levels to payment of various fees and charges. He lamented that despite conducting sensitization and engagement, many have still shunned their obligation to the Council. He further informed the house that the Council would proceed to follow steps guided by the law in collecting revenue without lenience as it has not yielded results.

2. POOR ROAD NETWORK

Another challenge tabled was poor road network which has continued to inhibit social economic activity in the District.

3. LOW REVENUE BASE

The third challenge raised is the low revenue base in the district being a rural township.

SH/11/11/24 PLENARY

1. A comment was raised in which a stakeholder inquired if the Council collects revenue from Trucks as there are numerous trucks which transit through Mbala District.

Response: A response was given that currently, Mbala doesn't have a zone allocated to trucks, but the Council would develop such a facility using the Zambia Devolution Support Programme Grant after a zone is allocated.

2. A comment was raised in which a stakeholder commented that Lake Tanganyika corridor makes millions of dollars in fish levy and asked what the Council is doing to benefit from the same. He reminded members that Chisanza area belongs to Mbala on the map but has been grabbed by Mpulungu District. He also asked what the Council is doing to develop Kaseshya Boarder, insisting that the Chamber of Commerce had been patient for too long and the Council is not responding to their push.

Response: The Town Clerk responded that the Council has written to the relevant authority and will update the public in due time. She stated that the Council appreciates the effort of the Chamber of Commerce in this regard. She further guided that the boarder is in the hands of the Ministry of Commerce and Ministry of Local Government and would be a game changer once fully operationalized and developed.

3. A comment was raised in which a stakeholder stated that the warrants of distress issued by the council and engagement of bailiffs would not resolve compliance failure by rate payers. He advised that debtors should be summoned individually and create a payment plan rather than engage in litigation.

Response: The Director Finance responded that the Council began engaging debtors in 2023 and has held four meetings since, but has not executed any warrant for years despite the law enabling the Council to do so. He stated that with a budget line of 3 million, the Council only collected 2% which has subjected the Council to Parliamentary Hearings. He further reminded members that in 2023, the Council gave its debtors discounts not even supported by the law, conducted sensitization, but only a few came through to make payments. He then advised stakeholders that the Council is accountable to the government and will now use the Law to recover what is owed.

SH/12/11/24 CLOSING REMARKS BY HIS WORSHIP THE MAYOR

In his closing remarks, the Mayor reiterated appeals made by the Council for rate payers and business owners to comply to the law and pay their dues as the Council cannot provide the much needed public services without revenue. He further thanked all members for responding to the Council's invitation to attend the stakeholders meetings and for their input. The meeting was closed at 12:30 and a closing prayer was given by Director Public Health.
