6. METHODOLOGY

The formation of Ward Development Committees in the nine wards was done by way of facilitators visiting the wards to conduct the registration and election of zonal representatives in each zone in the ward. After zonal elections, a date was then set for each ward to conduct elections to elect the Ward Development Committee Executive.

7. HOW THE ACTIVITY WAS DONE

1. ZONAL ELECTIONS

The zonal elections began by making appointments using the village headmen. After a date was set, the facilitators were then divided into groups to go and do the sensitization, registration as well as conducting the zonal elections. During sensitization, facilitators used the extracts from the WDC guidelines to explain on the importance of development starting from the bottom as opposed to the top. (Bottom up approach). After sensitization was done, the communities were given chance to nominate their zonal representatives by way of proposing names which were later subjected to a secret ballot elections. The elected Zonal Representatives per ward are as attached in **Appendix A.**

2. EXECUTIVE FORMATION

The executive formation was done by informing all the elected zonal representatives to meet at a central place in each ward. Thereafter, facilitators were divided into groups to go and conduct the election of the Ward Development Executive Committees. During the executive formation, facilitators began by going through the WDC guidelines. Thereafter, those who were elected at zone level were given a chance to nominate names of those to fill up the positions of the Chairperson, Vice Chairperson, Secretary, and Treasurer as well as four committee members. The elected WDC Executive per ward are as attached in **Appendix B.**

8. CHALLENGE/S

- Lack of interest by community members to attend the meetings.
- Lack of corporation by some civic leaders.
-

9. RECOMMENDATION/S

- Need for more community sensitization meetings on the importance of such developmental meetings.
- Engage some of these civic leaders to take interest on government programmes.

10. CONCLUSION

The programme went on well despite a few challenges encountered.
